

This section shows how to remove your Domi AirBox

It is possible to remove the Air Filter without removing the AirBox.

Although this guide doesn't have a price tag it is copyrighted and formally registered. If you like what you see and this has helped you, please make a donation via **PAYPAL** to richard@coote1.com. Your support will help make more manuals like this available.

If you haven't helped yet, please donate so I can continue to offer these guides.

We are slowly developing useful tools to help make it easier for you to work on your pride and joy. Specialty hand crafted tools for your modern Norton by **One07 Tools**, can be purchased from places like **Colorado Norton Works in the USA**. If there are any tools in this manual or other manuals you would like more information on, please email me at richard@coote1.com

In the Denver USA Area, I recommend Jonathan Reece at Skeleton Cycles for all of your 961 Norton Service Work. He can also remap your ECU with the latest Fuel Maps and BIN file to match your exhaust. You can mail him your ECU for a flash if you don't live close.
